the four-power pact and was in the position of having to accept what his three Republican colleagues did without being able to adopt a dissenting course.

Mr. Underwood, however, is surrounded by a faithful group of friends in the Senate who will support him on the four-power pact as they did on the German treaty. The danger to ratification lies rather in the possibility of a Republican and Democratic coalition. Senator McNary, of Oregon, Republican, wants reservation. Senator Kenyon, of Iowa, Republican, is reported as undecided. He is capable of making a staunch fight and the Democrats would welcome him to their ranks in opposing this treaty just as did Senator Lodge that he might favor the four-power pact is inclined to be open minded about the new treaty and await the outcome of the whole conference before reaching a decision. Senator Johnson, of California, Republican, is in his native state now keeping his ear to the ground there. Some Democratic Senators think Mr. Johnson uncompromising on Reservations the will support the treaty in order to assure himself of administration support in his campaign for re-election next year as there have been rumors of Herbert Hoover entering the race against Mr. Johnson. Those who know the California Senator best ridicule such an assertion and insist that he will make up his mind on the four-power pact irrespective of political consequences. They regard as much more significant the fact that the Hearst newspapers in California are opposing the treaty and the latter made the fight for Hiram Johnson in the presidential primary contest last year. Mr. Johnson's attitude is largely important in respect to its influence on his Republican colleagues.
